Weekly Report 17 Aug 2026

SET Index traded in narrow range and closed at 1609 on Friday. SET blue-chip market has shown a bearish pattern and likely to fall this week. We target the range will trade within 1580 – 1620 region. The USD/TH exchange rate closed at 33.09 on Friday. This week, we foresee the exchange rate market will trade within 32.80 – 33.20 region.

Gold spot prices traded in moderate consolidation and closed at USD4376.60 /oz before the weekend. This week, we target the yellow metal will rise amid new demand with support cemented at USD4300 /oz area. Uptrend is expected from USD4300 – USD4600 /oz range as Dollar is prone to weaken.

WTI Crude spot prices traded in moderate strength last week and closed at USD81.53 /barrel on Friday. This week, we foresee the market will rise further and probably trade within USD80.00 – USD92.00 /barrel region. We foresee the resurgence of geo-political risk in Strait of Hormuz and could spark off new war conflict that lift the oil demand.

Silver spot prices traded inactively last week and closed at USD64.48 /oz on Friday. This week, we project the market will follow yellow metal and return into uptrend. Range is target at USD64.00 – USD70.00 /oz region if general metals are prone to rise this week.
