

Weekly Report 28 Sep 2026

SET Index traded in a moderate range and settled at 1607 level on Friday. This week, we forecast the market will likely trade lower and within the range of 1590 – 1615 region. The USD/THB exchange rate settled at 33.37 level on Friday. This week, we foresee the exchange rate will trade lower within 33.10 – 33.50 region.

Gold spot prices closed at USD4280 /oz on Friday and seem ready for a recovery this week. Technically, we forecast the market will rise and trade from USD4240 - USD4400 /oz this week. However, traders should observe the aforementioned support must be intact. Dollar Index topped off 101.00 level on last Friday and likely to fall this week.

WTI Crude spot prices bounced off near USD86.00 /barrel bottom last week. Market closed at USD91.39 /barrel before the weekend. This week, we foresee the market will trade sideways and move within USD88.00 – 96.00 /barrel region. Uncertainty is still looming in Middle East while waiting for U.S. to accept a negotiation with Iran.

Silver spot prices traded in a narrow range last week and closed at USD64.30 /oz on Friday. This week, we target the market will rise in technical recovery. The market will likely trade from USD63.50 - USD67.50 /oz in growing demand and reacting to a weaker Dollar. Both precious metals are prone to rise in coming near future.
