

Weekly Report 9 Feb 2026

SET Index closed at 13-month high 1354 by following the bullish sentiment in Dow market. Market bulls have surprised the market and look forward to reach 1375 as our next higher target this week. Downside support will emerge at 1340 level in case of drawdown. The USD/THB exchange rate fell on Friday and settled at 31.47 for weekend closing. This week, the Dollar may wane further and push the USD/THB rate down. Range is target at 31.00 – 31.60 region.

Gold spot prices settled at USD4961 /oz on Friday. This week, the market is likely to thread sideways in uncertainty and move within USD4700 – USD5100 /oz region. Market swings will be expected as traders will begin to adjust their positions once the market movement recovers above USD5000 /oz benchmark.

Crude WTI spot prices penetrated above USD65.00 /barrel level briefly and fell last week. Market settled at USD63.31 /barrel before the weekend. This week, the market will trade in consolidation amid small range. We target the market movements will be contained within USD61.50 – USD64.00 /barrel region.

Silver spot prices made another dip at USD64.05 /oz and closed higher at USD78.01 /oz level on Friday. This week, we expect the market to be erratic and move within the range of USD70.00 – USD85.00 /oz region. Mixed trading will emerge with rising liquidity as more traders are losing confidence in Silver market so long as the prices submerge below USD80.00 /oz level.
